TORTOLITA

Hole-by-Hole Description

Hole 1	Par 4	Tournament 493	Blue 471	Copper 428	Yellow 417	Green 300
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

This straightaway hole starts over a wash toward a left-side fairway bunker edged with wispy native grasses. The wash re-crosses the fairway, forcing a carry to at least the mown area in front of the rectangular green.

Hole 2	Par 5	Tournament 659	Blue 559	Copper 546	Yellow 533	Green 464
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Bunkers on both sides of the wide landing area display more flowing, native grasses. A wash area splits the fairway, forcing a carry on the second shot. Pot bunkers protect an elevated green with a sloping ridge.

Hole 3	Par 3	Tournament 219	Blue 203	Copper 181	Yellow 156	Green 114
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Teeing off from the highest point of course, a huge bunker runs all along right side, with a pot bunker short of the sloping green that drops off in the front left and back right. Another “blind bunker” sits in the back left.

Hole 4	Par 5	Tournament 583	Blue 539	Copper 516	Yellow 481	Green 403
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Gently bending right, the landing areas are bordered by bunkers and desert. A centered pot bunker 80 yards short of green creates a choice: ignore it, or lay up. Four more bunkers dominate the final 70 yards to the green.

Hole 5	Par 4	Tournament 449	Blue 441	Copper 398	Yellow 370	Green 311
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A wide landing area features a massive bunker complex on right (52 yards long). The approach presents a carry over a wash and two deep front bunkers to a narrow green, which is low in front and rises to the back.

Hole 6	Par 4	Tournament 343	Blue 343	Copper 343	Yellow 280	Green 273
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Wash areas create a possible “double-carry” – first from the tee and then where it crosses the fairway, 120 yards from the green (260-yard tee shot needed). A deep pot bunker is 50 yards short of the level, narrow green.

Hole 7	Par 3	Tournament 247	Blue 199	Copper 174	Yellow 164	Green 114
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A downhill carry over the desert wash from the tee, a mown area covering the final 50 yards is bordered by a wide, shallow bunker on the right and pot bunker on the left. The green rises from the front right to back left.

Hole 8	Par 4	Tournament 482	Blue 451	Copper 439	Yellow 375	Green 339
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A substantial landing area on this dogleg right includes a bunker on the right that stretches for 77 yards. The approach is a carry over desert wash. The green is defined by a huge center ridge, creating 3- to 4-foot dropoffs.

Hole 9	Par 4	Tournament 480	Blue 412	Copper 379	Yellow 326	Green 320
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A roomy landing area on this dogleg right has two bunkers – one on the right and the other centered in the fairway. The approach is a carry over the wash to an elevated green, surrounded by a grassy “amphitheater.”

Totals	Par 36	Tournament 3955	Blue 3618	Copper 3404	Yellow 3102	Green 2638
---------------	---------------	------------------------	------------------	--------------------	--------------------	-------------------
